PROJECTS

Research Copilot | Next.js, FastAPI, LangChain, pgvector

- Built an end-to-end research assistant: Next.js frontend, FastAPI backend, RAG over uploaded papers using embeddings in pgvector and tool calling for web search.
- Implemented async ingestion workers and caching; deployed on GCP Cloud Run with Docker and GitHub Actions CI/CD.
- Evaluated retrieval quality with recall@5 on a hand labelled test set (0.78).
