TECHNICAL SKILLS

Python, Google ADK, LangGraph, FastAPI, Docker, Redis

PROJECTS

Travel Planner Agent | Google ADK, Python

- Developed a multi-agent travel planner with Google ADK where a planner agent delegates to flight and hotel tool-calling agents and keeps session state.
- Added guardrails and an evaluation set of 40 prompts; reduced tool errors by 35% with retries and fallbacks.

EXPERIENCE

AI Engineering Intern, Orbit AI

- Built Python FastAPI services around LLM agents with async calls and Redis caching.
